

May 2018 Superintendent Report

Wastewater Treatment Plant

Operators performed routine repair and maintenance at the wastewater treatment plant during May 2018.

Sanitary Sewer Overflow

There were no MCCSD collection system sanitary sewer overflows during May 2018.

Recycled Water

The District did not transfer recycled water to the High School in April 2018.

Chlorine Room

Jess Construction completed removing the window and vents in the old chlorine room. The drywall was repaired and the exterior siding was painted.

Wastewater System Improvements Project

The Mendocino County Archaeological Commission approved the District's Coastal Development Use Permit modification (CDU 1991-35) to install new disinfection and de-chlorination systems, rehabilitation of the drying beds, replacement of the equalization pond liner, replacement of the backwash controls for the tertiary filters, relocation of the lab to a new operations building, and remodeling of the District office. A condition of the approval was that an archaeologist and a Native American representative are required to observe any project excavation.

Safety Meeting and Plant Safety Inspection

The Safety Officer also conducted the monthly safety inspection of the plant and safety meeting on April 18, 2018. The safety meeting was on *Real Life—Safe Driving*.
