Commercial Diving: Services & Instruction Certified Welding Inspection Certified Marine Surveys

Quote for Outfall Inspection/Biotic Survey

Alpha Diving presents this quote to Mendocino City Community Services District to provide diving services to complete the following tasks in accordance with the 2017 MCCSD Ocean Outfall Biological Survey Work Plan:

1. Perform biotic survey at diffuser and control station
2. Perform mechanical and structural inspection of total length of outfall from diffuser end to beach
3. Provide written reports validated by a degreed Marine Biologist and a Certified Marine Surveyor respectively.
4. Provide photographic and video evidence of the biota in the vicinity of the diffuser and the control station and the overall condition of the outfall to support written documentation.

The estimated cost of this survey is \$19,000.00. Alpha Diving Industries will provide vessel support, diving personnel, diving equipment and any special equipment required for this project in the scope of the estimated cost

The projected timeframe for the execution of this project is August-September 2019. Historically this is a time of little ocean energy which provides very safe working conditions. This quote includes the scope of work detailed above only. In the event major or minor damage is discovered requiring further repair, a new quote shall be prepared and submitted. This quote is valid for one hundred, eighty days (180) days from receipt by MCCSD. Thank you for considering Alpha Diving for your maintenance and inspection needs.
