

Notice of Intent to File an Application with USDA, Rural Development

The Mendocino City Community Services District, Mendocino, California intends to file an application with USDA, Rural Development for financial assistance for the following purpose:

1. Replace existing treatment plant effluent disinfection system with an onsite chlorine generation system, and replace existing dechlorination system. Constructed a building to house to house the systems. Install a 50,000 gallon underground tank to store recycled water and plant water (#2 water).
2. Replace #2 water pressure system and recycled water pressure pumps and controls. Install fill station to distribute recycled water to the public for irrigation and to contractors for dust control and compaction. Install a 6-inch purple C-900 recycled water main from the treatment plant to the existing 30,000 gallon redwood and 50,000 gallon concrete tanks at the High School. Place recycled water fire hydrants on Ukiah Street and Kasten Street along the recycled water main to provide additional firefighting water capacity for the Mendocino Fire Protection District.
3. Rehabilitate sludge drying beds to provide a redundant sludge handling system.
4. Replace the equalization pond liner.
5. Replace the existing backwash controls with a programmable logic controller.

The anticipated cost of the project is, which includes legal counsel, environmental reports, and engineering services is \$3,072,270. The District is filing an application for funding through the USDA Rural Development Community Facilities Direct Loan and Grant Program in the amount of \$3,072,270.

The public meeting will be held on May 8, 2017 at 9:00 AM at the District office located at 10500 Kelly Street, Mendocino, CA. For additional information and a District map that identifies the location of the project improvements can be obtained at the District office. The public is encouraged to attend and offer comments regarding the Project and USDA funding application.
